We’re excited to bring you the latest news and updates on the project to keep you informed with what’s been happening and what’s next.

Demolishing six State Government owned properties on Third and Railway avenues makes way for the Public Transport Authority’s temporary site works compound, and will later become the realigned Third Avenue.

The compound will store construction machinery and materials. Works are expected to be finished in July.

Going, going, gone

Demolishing six State Government owned properties on Third and Railway avenues makes way for the Public Transport Authority’s temporary site works compound, and will later become the realigned Third Avenue.

The compound will store construction machinery and materials. Works are expected to be finished in July.

Wanted: Contractors to deliver the project

Procurement has started with expressions of interest sought for the final design and construction of the Denny Avenue Level Crossing Removal solution.

Two design and construct contracts – one for the rail and bridge works, and the other for the road and civic infrastructure are expected to be awarded in late 2019.

Both contractors will work collaboratively with the Public Transport Authority to manage the interface between the works. This is a great opportunity for local jobs and construction supply chain businesses are encouraged to register their business on the Capability Register on the METRONET website www.metronet.wa.gov.au.
Will there be any disruptions at Kelmscott Station or to the Armadale Line?

Details of the impacts to Kelmscott Station and the Armadale Line services during construction will be finalised once the contractor is on board.

We do expect there to be some train service disruptions when we tie in the temporary and final rail track. These service disruptions are anticipated to take place across weekends and will aim to avoid clashing with major events at Optus Stadium.

For all of the project’s Frequently Asked Questions – visit the METRONET website.

Get involved in the Community Reference Group

Nominations are now open for members to join our Denny Avenue Level Crossing Removal Community Reference Group (CRG).

We are seeking to engage passionate locals to become members of the CRG to represent the community. This will be a fantastic opportunity to have your say and learn more about the project, as it progresses through the planning, construction and delivery phases.

The CRG will enable members to provide feedback, raise any concerns and review outcomes where appropriate.

We welcome nominations from all residents, businesses and community groups in the area.

For more information or to nominate, please visit www.mysaytransport.wa.gov.au/metronet.

Find us in your feed

Did you know that the Denny Avenue Level Crossing Removal has a community Facebook group?

The group is designed to update the community on project milestones, construction impacts or general project updates. It’s a forum for interaction, discussion, commentary and questions between the community and METRONET. Join by searching “METRONET Denny Avenue community group” in the Facebook search bar or type this URL into your browser: www.facebook.com/groups/metronet.dennyavenue/.

Nominations close Friday July 5.

What’s next?

Work’s commencing

Once the contract is awarded in late 2019, the project will move into the next phase which will confirm the design, construction methods, and identify other impacts to residents.
