Morley-Ellenbrook Survey Results

Through our Morley-Ellenbrook Line community survey, nearly 2000 of you let us know how you feel about the project, what you value in your community and what amenities you’d like to see around the new stations.

The Project

The Morley-Ellenbrook Line to Perth’s north-east suburbs will support existing communities with improved transport connections and amenity. It will also create jobs and encourage the growth of new communities through integrated station precincts.

Planning is underway with an options analysis focussing on potential locations and alignment for the rail line. The Government’s preferred option is a 21km spur line from the existing Midland Line just east of Bayswater Station, heading north-east to Ellenbrook. Under this option, six potential stations are proposed at Morley, Noranda, Malaga, Bennett Springs, Whiteman and Ellenbrook.

Key contracts will be awarded shortly to help develop the business case and during this process, we will continue to engage with the various local communities along the potential route.
WHAT YOU SAID

Importance

When asked about the importance of METRONET...

77% of you think this project is important to you personally

86% of you think this project is important to your suburb

Top 3 Reasons Why

- Easier access
- Less parking hassle
- To save money

“...is growing rapidly and has a population that need reliable public transport. METRONET may just be the answer.”

Ellenbrook resident

Your priorities

Top 3 features valued in your area
- Green Spaces
- A sense of community
- Quiet lifestyle

Top 3 features desired near station
- Restaurants / cafes / bars
- Parks / recreational areas
- Retail

Top 3 improvements to your area
- Increased availability of public transport
- A train line / station
- more leisure and entertainment options

Your concerns

Safety
- Safety and security through good design will be top priority.

Noise
- Noise assessments will tell us what measures need to be put in place to minimise train noise as much as possible.

No benefit to me
- Everyone will enjoy the benefit of better connections, reduced road traffic and community development opportunities.
