Alkimos Station

Approximately 41 minutes from Perth by train, Alkimos Station will serve the future Alkimos Central development, which has been master planned by LandCorp to provide much needed service amenities to the area.

Station snapshot*

- **3,616** Daily boardings (2031)
- **41 min** Journey to Perth
- **600** Parking bays
- **8** Bus stands
- **10 + 2** U-rail, Bike shelters, Passenger toilets
- **Lifts, escalators and stairs**, **Universal access**

*Final details are subject to detailed design and may change.

Location

Alkimos Station will be located within LandCorp’s Alkimos Central development, on the corner of Romeo Road and Marmion Avenue, west of Wanneroo Road.
Station design

The early station design work looked into the location, scale and general features of the future station. This work detailed how the station fits within LandCorp’s master planned development and caters for passengers on day one of operations.

That is why the station’s flexible design allows consideration for:

• **Option A** – bus stands in the centre of the interchange, providing convenient access to a northern train station entrance by crossing the bus way.

• **Option B** – integration within the broader community with a southern station entrance facing the main street, which will serve as the primary pedestrian route and mixed-use development corridor.

Features of the universally accessible station:

<table>
<thead>
<tr>
<th>Passenger amenity</th>
<th>Public toilets, public services (such as vending machines), kiosk, passenger ticketing/information, staff amenities, station administration offices, storage/cleaning and operational facilities.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pedestrian/cycle access</td>
<td>Well connected to a principal-shared path west of the station, with two secure bicycle parking shelters, bike u-rails and ability to add two additional secure bicycle parking shelters in the future.</td>
</tr>
<tr>
<td>Bus interchange</td>
<td>Six stands with weather protection, seating and information facilities. The interchange includes four layover bays.</td>
</tr>
<tr>
<td>Vehicle access</td>
<td>Dedicated passenger drop-off area and approximately 600 parking bays.</td>
</tr>
</tbody>
</table>

The station architecture and final design will be developed when a contractor is appointed.
Precinct development

Located between the strategic metropolitan activity centres of Joondalup and Yanchep in the heart of the northern coast corridor, Alkimos Central is an emerging secondary activity centre that is planned to include amenities for the fast growing area, including a significant retail area, mixed density residential development, business and service industrial precincts, civic and cultural zone and playing fields, indoor recreation centre and educational facilities.

The 212 hectare development area, owned by the State Government’s LandCorp, provides an opportunity to coordinate the timely development of the station with the station precinct.

Alkimos Central is an integral development in LandCorp’s master plan for the area, which comprises of four individual yet interconnected developments. Alkimos Central is the city scale development, Alkimos Vista and Alkimos Beach, developed in conjunction with Lendlease, are residential developments, and the future Alkimos foreshore development will be a vibrant ocean front village community.
About the project

METRONET’s Yanchep Rail Extension extends the Joondalup Line 14.5 kilometres north with new stations at Alkimos, Eglinton and Yanchep. Connected by a 13.8 kilometre principal shared path, nine road-over-rail bridges and a comprehensive bus feeder network, the project is the catalyst for progressive mixed use development around each station that will provide local amenity, services and employment.
